

May 2016

I thought that spring had arrived, but I was wrong! Cold wet weather good only for the fish we attempt to catch.

Last week Captain Ray came and presented us with a different appreciation of the waters around Rhode Island. The story he told was great and the drone photos were amazing. I think I have a different appreciation for drone photography now.

This month, as we have done in the past we are planning on having our annual end of season BBQ. We are having Captain Jerry Sparks, coming to the BBQ. In the past he has talked on fishing out of Kayaks. Now, we may be able to fish on the pond using them. The location will be as in the past at Whiting's Pond, North Attleboro. You can get there off of Route 1 and take West Street. If you have any questions call or write a board member who can give you better directions.

Mark your calendars June 7th we are planning on having a trip to Ninegret Pond, Rhode Island for a worm hatch. We will be meeting at Home Depot on Route 140 Mansfield to car pool around 4pm leaving. Please contact me via phone or email if you will be able to attend we would like to have a head count.

Howie is also planning on having a trip to Cotuit later this month as well. In the fall, for shad at the narrows in Rhode Island. Watch the message board.

While out fishing this summer, take some photos of the fish you catch and send them to Steve, he will post them on the message board. We are getting tired of seeing the same old people catching fish we would like to see some new fish taken.

At the meetings voice your opinions this is your club.

Tight lines hope to see you,

Joel
